About My Setting

I design climbing that is challenging, creative, and welcoming for everyone. My setting emphasizes **equitability** and adaptability, with a special focus on **para climbers**, youth climbers, and **board climbers**. I believe thoughtful movement design can challenge strong climbers while remaining welcoming, equitable, and rewarding across many different bodies and climbing styles.

Design Values

- ♥ Equitable movement across body types
- ♥ Adaptability for para athletes
- ♥ Age-appropriate development for youth climbers
- ♥ Technical movement for board climbers
- ♥ Modern commercial & competition setting
- ♥ Safety, communication, and collaboration

Routesetting Experience

Springs Climbing Center (SCC)
Commercial Routesetter + Youth Coach + Operations Nov 2025 – Present

- ♥ Set commercial boulders from first-time climbers to advanced athletes with intentional movement, readability, and progression.
- ♥ Contribute throughout full reset cycles: stripping, washing, hold organization, installation, forerunning, grading, and QC.
- ♥ Forerun boulders through V11 and sport routes through 5.14a, providing movement and grade feedback.
- ♥ Coach youth athletes across recreational and competition pathways.
- ♥ Familiar with USA Climbing youth competition pathways and age-based athlete development, adapting movement and instruction to evolving competition categories and developmental stages.
- ♥ **Organized Women's Climb Night**, welcoming 80+ participants and supporting local women's climbing community.
